

Career Objective

Computer Science Engineering student with hands-on experience building full stack web applications using React.js, Node.js, Express, and MongoDB. Skilled in REST API design, JWT authentication, data visualization, and deploying production applications. Seeking a role to contribute to a dynamic tech team and grow as a developer.

Technical Skills

Frontend: React.js, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3, Recharts

Backend: Node.js, Express.js, REST API Design, JWT Authentication, Multer

Database: MongoDB, Mongoose, PostgreSQL

Tools: Git, GitHub, Postman, Vercel, Render

Concepts: CRUD, Pagination, Rate Limiting, File Upload, Data Visualization, OOP, DBMS

Soft Skills : Problem-Solving, Team Collaboration, Communication, Adaptability

Projects

AI Meeting Pro | React · Node.js · MongoDB · JWT · Groq AI

- Built full stack AI meeting analyzer — users paste transcripts and get summaries, key points, and action items using LLaMA 3.3 70B via Groq API
- Implemented JWT authentication with bcrypt, per-user data isolation, and Axios interceptors for seamless auth
- Fixed Linux case-sensitivity deployment bug on Render — learned to match import paths with exact filenames

Live: ai-meeting-pro.vercel.app | **Code:** github.com/ratnachaplot/ai-meeting-pro

Blog REST API | Node.js · Express · MongoDB · JWT

- Built production-grade REST API with refresh tokens in httpOnly cookies (15 min access / 7 day refresh) for XSS protection
- Implemented account lockout after 5 failed attempts, rate limiting (100 req/15 min), pagination, search, and file upload
- Designed role-based access control — only authors or admins can update/delete posts and comments

Live: blog-api-hcbo.onrender.com | **Code:** github.com/ratnachaplot/blog-api

ExpenseIQ | React · Recharts · Tailwind CSS · Exchange Rate API

- Built personal finance dashboard with pie and bar charts using Recharts — spending by category and monthly trend
- Used useContext for global dark mode, custom hooks (useExpenses, useCurrency) for clean separation of logic
- Integrated live currency conversion API (INR to USD/EUR/GBP/JPY/AED) with session-level caching

Live: expensetracker-zeta.vercel.app | **Code:** github.com/ratnachaplot/expenseiq

Experience

Web Development Internship — Main Flow Services & Technologies (Remote)

May – June 2024

- Built UI components using HTML, CSS, and JavaScript — improved responsive design and self-learning skills

Web Development Internship — IBM SkillsBuild (Remote)

Jul – Aug 2024

- Collaborated on group projects building interactive web interfaces — strengthened team coding practices
-

Education

B.Tech in Computer Science & Engineering — Geetanjali Institute of Technical Studies, Udaipur

2022 – Present | CGPA: 9.0

Senior Secondary (XII) — St. Gregorios Sr. Sec. School, Udaipur

2022 | 70.80%

Secondary (X) — St. Thomas Sr. Sec. School, Fatehnagar

2020 | 86.50%

Certificates

Full Stack Web Development with MERN Stack & GenAI 2025 — Udemy | 102 hours | Aug 2025

Internal Hackathon for Smart India Hackathon | 2024
